

IMAGINE NO MALARIA

OUR FAITH IN ACTION

“Imagine No Malaria” is a comprehensive anti-malaria campaign run by The United Methodist Church. As a life-saving ministry, Imagine No Malaria aims to raise \$75 million to empower the people of Africa to overcome malaria’s burden. Imagine No Malaria works in partnership with the United Nations Foundation and the Global Fund.

PREVENTION

Insecticide-treated mosquito nets are still the best way to prevent malaria, however, other measures like draining standing water where the insects breed, trimming foliage and proper sanitation, are also critical to preventing malaria.

TREATMENT

The United Methodist Church has been working in Africa for more than 160 years. The church has the infrastructure of more than 300 clinics and hospitals in Africa to treat many patients. The Imagine No Malaria campaign has the goal of getting medicines and diagnostic tests to those hospitals and clinics.

EDUCATION

The program provides training for local community health workers to educate people on the symptoms and defenses against malaria, as well as educating them about how to use their bed nets.

RAISING MONEY

The operational costs for Imagine No Malaria are covered by a grant, awarded by the United Nations Foundation. This allows the effort to ensure that 100% of funds raised are used to support for malaria programs in Africa.

If you wish to contribute to the Imagine No Malaria project, make your check out to Burlingame UMC “Imagine fund.”

PARTNERS

The United Methodist Church is working on this project in conjunction with partners of a religious and secular nature. Partners include the World Health Organization, the United Nations Foundation, the Global Fund to Fight AIDS, Tuberculosis and Malaria, the Bill and Melinda Gates Foundation, the Red Crescent Society.

We have the power to save lives and change the world!
